

RULES

Out of Bounds (OB)

- At our course, the following areas are Out of Bounds:
 - Concrete, gravel, the creek, and parts of the baseball field
- A disc is OB only if the entire disc is on one of these surfaces.
 - Example: If your disc is touching both the grass and the street, it's in bounds. If your whole disc is on the street, it's out of bounds.
- If your disc is OB, you play from where it landed but add one penalty stroke to your score for that hole. You do not need to move your disc back in bounds.

Mando (Mandatory)

- A mando is a marked tree or pole that your disc must pass on the correct side, as shown by an arrow. If your disc misses the mando, you must bring it back to the mando spot and throw from behind it, going the correct way. No penalty stroke is added for missing the mando.

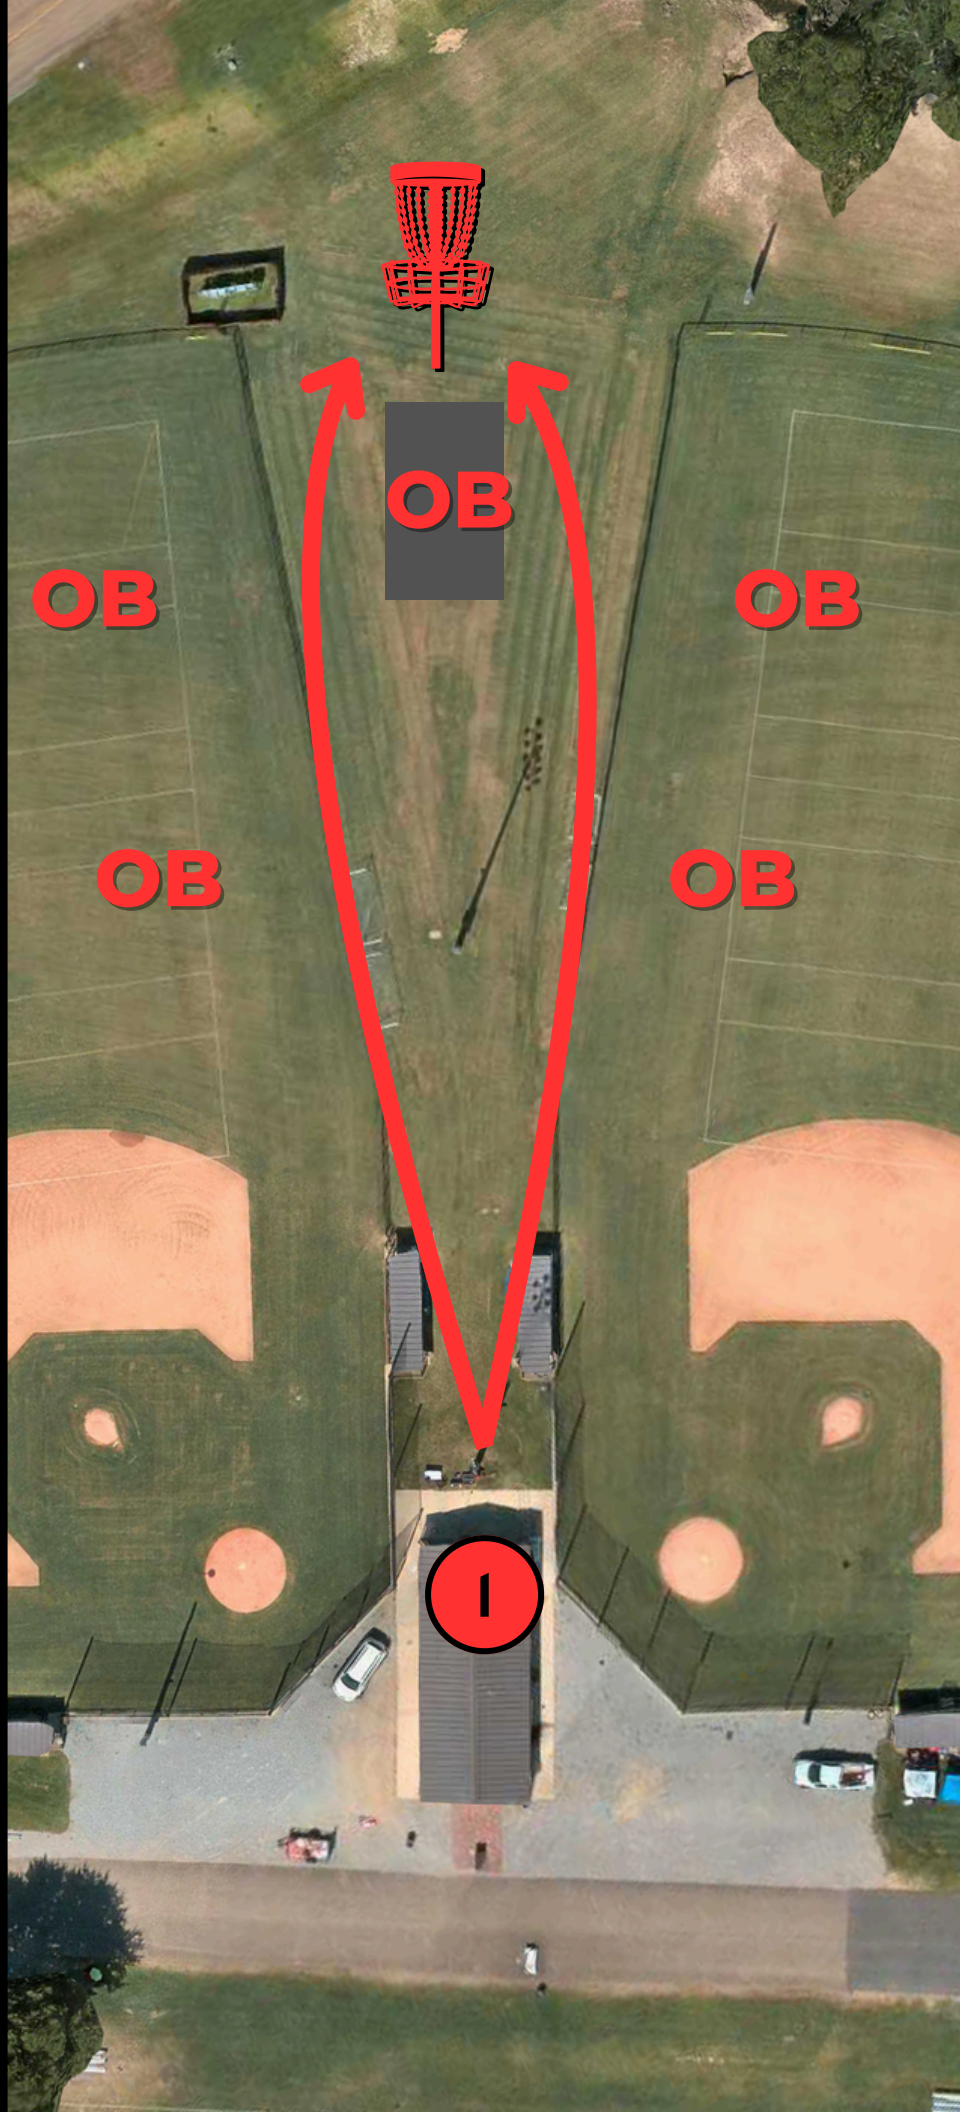

Please be sure to check the tee sign to be aware of all features of a specific hole

HOLE 1

PAR: 3

289 FT

HAZARD: Landing on top of the batting cage and baseball fields are OB

HOLE 2

PAR: 4

400 FT

HAZARD: Creek is OB

HOLE 3

PAR: 3
